

## EMPOWER YOUR TEAM

# 24/7 Security Operations Center (SOC) Services

Always-On Defense. Immediate Response. Total Visibility with Sourcepass.

**Your business handles sensitive data, operates critical applications, and relies on networks that must stay secure.**

Threat actors know this, and they don't punch a clock. What you need is continuous monitoring, expert response and real-time visibility—not just another security tool.

## What You Get with Managed SOC

### 24/7 Monitoring and Response:

Across endpoints, cloud, network, and users so threats are detected and addressed around the clock.

### Human-Led Investigation:

And containment from a U.S.-based team that moves beyond alerts to action.

### Compliance-Ready Reporting:

And logging aligned with frameworks like HIPAA, SOC II, and ISO 27001 so you can demonstrate control and readiness.

### Integration With Your Existing Stack:

Whether it's SIEM, MDR, EDR, cloud platforms, or identity services, the SOC plugs in seamlessly.

## Business Benefits

### Reduce Risk & Incident Dwell Time

By having experts monitoring and acting continuously.

### Free Up Internal IT Resources

So your team can focus on strategic initiatives instead of alert fatigue.

### Gain Enterprise Grade Protection

Without the cost and complexity of building your own 24/7 SOC.

### Adapt As You Grow

Service scales, integrates, and evolves with your business and security needs.

## Why Choose Sourcepass?

- Certified SOC 2 Type II & ISO 27001
- Expert SOC Analysts
- Quest® Platform
- Proven Partner for Growing Businesses & Enterprise Orgs

## How Sourcepass Delivers SOC Excellence

### Continuous Monitoring:

Live oversight of all devices, networks, and cloud infrastructure to spot suspicious behavior as it happens.

### Advanced Detection:

Behavioral analytics, threat intelligence, and context-aware correlation detect attacks that attackers thought they could get away with.

### Rapid Response:

The team doesn't just alert—they triage, isolate, remediate, and help you recover before damage spreads.

EMPOWER YOUR TEAM

## 24/7 Security Operations Center (SOC) Services

Always-On Defense. Immediate Response. Total Visibility with Sourcepass.

### Visibility & Reporting:

Through the proprietary Quest® platform, you get dashboards, incident tracking, and transparency into what's going on, what was done, and what's next.

### Scalable Model:

Whether you have no dedicated security staff today or you're growing fast, this service scales with your risk profile, infrastructure, and budget.

## Why Choose Sourcepass?

- Certified for **SOC 2 Type II and ISO 27001** standards, so processes and data are handled at industry-recognized levels.
- **Fully U.S.-based analysts in our SOC:** No outsourcing, ensuring consistency and accountability.
- Transparent platform (Quest®) that gives you **real-time access to incidents, metrics and operations** so you're never in the dark.
- A **modular service design** that works as a standalone SOC, or integrates with MDR, SIEM, co-managed IT, or compliance programs
- A **proven partner for growing businesses:** delivering enterprise-grade cybersecurity without the complexity. [sourcepass.com](https://sourcepass.com)

## Next Steps: Ready to Eliminate the Security Gap?

### CONTACT SOURCEPASS TODAY TO SECURE YOUR BUSINESS WITH A TRULY ALWAYS-ON DEFENSE.

1. **Set up a discovery call** with Sourcepass to evaluate your current security posture, threat exposure, and operational capabilities.
2. **Select the SOC service tier that aligns** with your business size, industry, and risk level.
3. **Onboarding begins:** integrate your systems, define detection logic, and align dashboards with your KPIs.
4. **Start 24/7 monitoring**, receive quarterly strategic reviews, and continuously evolve your security maturity.
