Microsoft Copilot for 365

Turn everyday work into intelligent productivity with secure AI assistance.

Work Smarter with Copilot for Microsoft 365

Copilot for Microsoft 365 brings generative AI directly into the Microsoft apps your team uses every day—Word, Excel, Outlook, PowerPoint, and Teams.

By combining the power of large language models with your organization's data in Microsoft Graph, Copilot helps you work faster, communicate better, and unlock new levels of productivity without changing the tools you already rely on.

Sourcepass helps organizations deploy Copilot securely, responsibly, and effectively—so you can harness AI without risking data privacy or compliance.
