

Microsoft 365

Empower Productivity, Collaboration, and Security in a Modern Workplace

Transform How Your Business Works

Businesses are evolving to support hybrid and remote work models that demand flexibility, secure access, and continuous collaboration. As teams connect from different locations and devices, maintaining productivity and protecting data has become more critical than ever.

Microsoft 365 provides an integrated suite of tools that enables teams to create, collaborate, and communicate securely from anywhere. With Sourcepass as your Microsoft Solutions Partner, your organization can fully leverage Microsoft 365 to simplify operations, improve security, and drive growth.

The Solution: Microsoft 365

Microsoft 365 combines the trusted Microsoft Office suite with powerful cloud services, advanced security, and intelligent tools. It's more than software—it's a foundation for modern business operations.

Sourcepass helps you get the most from your Microsoft 365 investment by guiding you through licensing, deployment, feature adoption, and security configuration. Whether you're implementing Microsoft 365 for the first time or optimizing an existing environment, our experts ensure a seamless, secure, and productive experience.

What's Included

Office 365 Applications:

Cloud-based versions of Word, Excel, PowerPoint, and Outlook that work across devices.

Collaboration Tools:

SharePoint, OneDrive, and Teams for secure file sharing, communication, and teamwork.

Identity & Access Management:

Centralized user management through Microsoft Entra for secure access and authentication.

Device & App Management:

Options for mobile device management with Intune and automated device provisioning with Autopilot.

AI-Powered Productivity:

Optional Copilot for Microsoft 365 enhances efficiency with intelligent insights, automation, and content creation.

Why Sourcepass?

As a **Microsoft Solutions Partner** with competencies in Modern Work and Azure, Sourcepass delivers expert implementation, proactive support, and strategic guidance. Our team has successfully migrated thousands of users to Microsoft 365 and continues to help businesses modernize securely and efficiently. With Sourcepass, you gain more than a technology provider—you gain a partner committed to your long-term success.

Microsoft 365

Empower Productivity, Collaboration, and Security in a Modern Workplace

Key Business Benefits

Simplified User Experience:

Enable employees to sign in once, access all tools securely, and collaborate seamlessly across teams and locations.

Secure & Scalable:

Protect your data, devices, and users with integrated identity, compliance, and privacy controls—scalable for businesses of all sizes.

Operational Efficiency:

Reduce IT complexity with centralized management, automated updates, and easy scalability as your business grows.

AI-Driven Productivity:

Boost efficiency with Microsoft 365 Copilot, which integrates artificial intelligence into Word, Excel, Teams, and more to automate tasks and generate insights.

Sourcepass Services to Maximize Microsoft 365

Microsoft 365 Migration

Ensure a smooth transition to Microsoft 365 with Sourcepass. Our certified specialists plan, execute, and support every step of your migration, minimizing disruption and maximizing adoption.

Microsoft 365 Security Hardening

We identify and close security gaps in your Microsoft 365 environment. Our experts review multi-factor authentication, conditional access, abnormal logins, and other critical configurations to reduce risk and strengthen your defenses.

Copilot for Microsoft 365

Unlock the potential of AI in your business. Sourcepass provides a Copilot Readiness Assessment to prepare your data governance and privacy settings, pilot your initial rollout, and deliver end-user training to ensure successful adoption.
