

Sourcepass Partner Overview

Delivering IT Innovation, Security, and Growth Through the Sourcepass Ecosystem

Sourcepass empowers organizations to modernize their IT, strengthen security, and achieve measurable business results.

Our ecosystem integrates managed IT, cybersecurity, strategic advisory, and Microsoft cloud expertise into one seamless experience.

For channel partners, Sourcepass provides the depth, scale, and technical specialization to deliver exceptional client outcomes—backed by 24/7 U.S.-based operations, certified experts, and a commitment to excellent service and strategic guidance delivered with innovation.

Modern IT. Elevated Experience: Digital Workplace Services

Sourcepass helps clients create efficient, secure digital workplaces that enhance productivity and reduce IT complexity.

Our managed services are designed to simplify operations and deliver a seamless employee experience from onboarding to daily support.

Outcome: A modern, resilient IT environment that keeps teams connected, supported, and secure—without burdening internal resources.

Protect. Detect. Respond: Managed Cybersecurity Services

With Sourcepass, clients gain access to enterprise-grade security operations that continuously monitor, detect, and respond to threats.

Our in-house, 24/7/365 Security Operations Center (SOC) and comprehensive cybersecurity services reduce risk and ensure compliance.

Outcome: Continuous protection and peace of mind through proactive defense and rapid incident response.

Capabilities

- 24/7/365 Service Desk and IT Support
- 1-Click Onboarding and Offboarding
- Infrastructure Monitoring and Management
- Device Procurement, Provisioning, & Patching
- Endpoint Security with Antivirus and EDR
- Disaster Recovery as a Service (DRaaS) with Scheduled Testing
- Staff Augmentation and Co-Managed IT Support

Capabilities

- Managed SIEM and SOC Services (In-House)
- Threat Detection and Remediation
- Security and Vulnerability Assessments
- DNS and Content Filtering
- Security Awareness Training
- Internal and External Penetration Testing
- SOC as a Service (SOCaaS)

Plan. Govern. Evolve: Advisory and Strategic Guidance

Our advisory services help organizations align technology investments with business objectives, manage risk, and maintain compliance.

Sourcepass provides the expertise to assess environments, build strategies, and drive continuous improvement.

Outcome: Informed, data-driven decisions that strengthen security posture and support long-term growth.

Microsoft Licensing and Cloud Expertise

As a Microsoft Solutions Partner with competencies in Modern Work and Azure, Sourcepass provides expert consulting, licensing, and implementation across the Microsoft ecosystem.

We help clients deploy cloud solutions that drive productivity, security, and collaboration.

Outcome: A fully integrated, cloud-powered workplace that empowers teams and reduces IT overhead.
